Organism Fact Sheets

Purpose: - Record how each organism we study meets the five characteristics of life.

Guiding Questions: What are the various ways through which organisms meet the characteristics of life?

Instructions

1. Use this sheet to record information about the organisms we study.
2. Use handout 6 to help you determine what you need to record about each organism.
3. Use citations when necessary (e.g. if you use a fact from the textbook, write down the page number.)
4. Copy additional pages to this document (or download this sheet again and delete this instruction page) whenever you need to add a new organism.

Name Period Date

Name of the organism: _____

Characteristic	How the organism meets this characteristic
Cells	
Energy/Waste	
Growth/Development	
Reproduction	
Response to Stimuli	

Picture of the Organism
